Domain II-B: Relative Performance

Elementary and Middle Schools

1. STAAR Performance

High Schools, K-12 Schools and Districts with CCMR

1. STAAR Performance
2. State CCMR

1. TEA “mapped” **actual 2016-17 data** for campuses and districts based on 2 variables

- Student Achievement Score (y axis)
- Fall Snapshot % of EcoDis students (x axis)

Achievement
Score of STAAR Performance (CCMR)

y axis

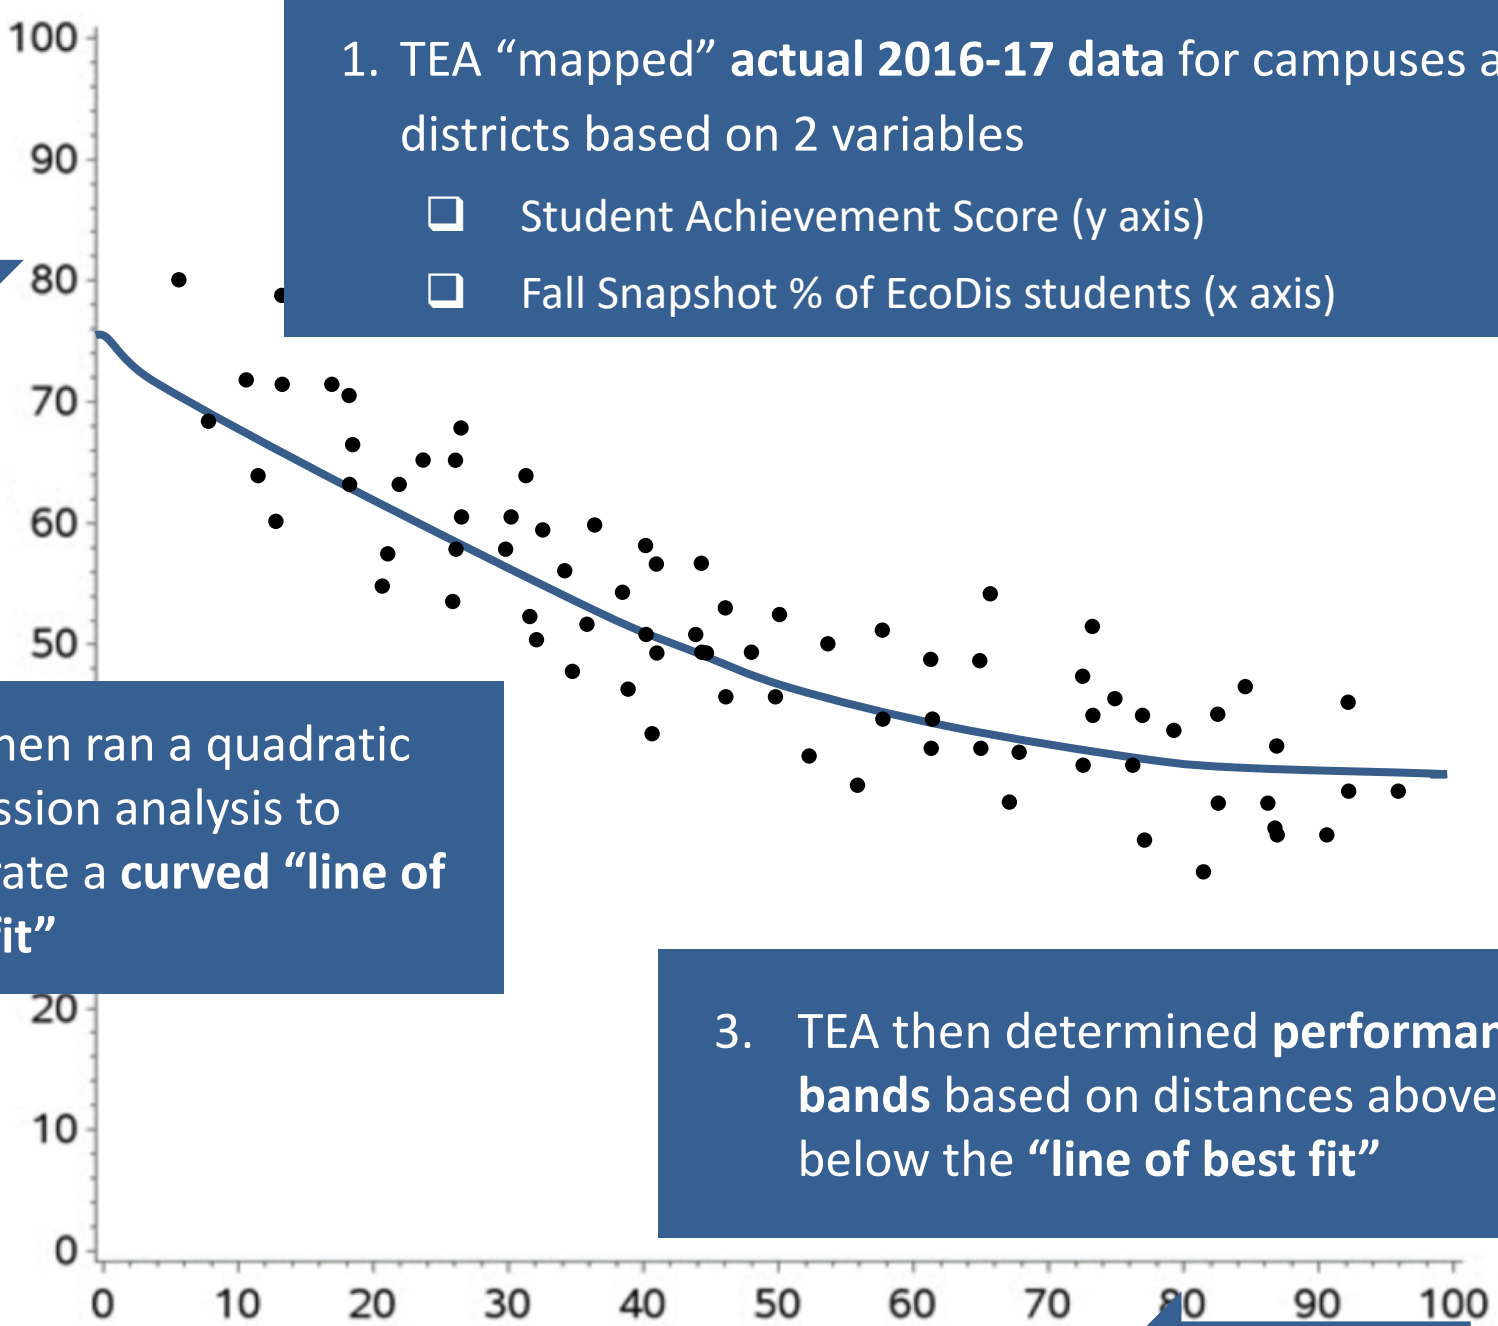

2. TEA then ran a quadratic regression analysis to generate a **curved “line of best fit”**

(STAAR Performance)

3. TEA then determined **performance bands** based on distances above or below the “line of best fit”

Elementary and Middle Schools

High Schools, K-12 Schools and Districts with CCMR

Domain III Components

➤ Academic Achievement

- ☐ % age of tests results (in Reading and in Math) at the **Meets Grade Level or Above** standard

➤ Academic Growth

- ☐ Academic Growth score (in Reading and in Math)

➤ Federal Graduation Rate

- ☐ Federal 4-year graduation rate for the Cohort Class of 2017-18 (using federal calculation for graduation rate – without state-allowed exclusions)

➤ English Language Proficiency

- ☐ % of current ELs making progress toward achieving English language proficiency (based on TELPAS composite score in 2018-19 compared to 2017-18)

➤ Student Success: STAAR Performance

- ☐ STAAR Performance score (average of Approaches, Meets and Masters rates) across All Subjects

➤ School Quality: Federal CCMR

- ☐ Same CCMR calculation as is used in Domain I EXCEPT that the denominator of students includes annual graduates in 2017-18 PLUS students identified as 12th graders in the last 6 weeks of the 2017-18 school year who did not graduate in 2017-18 (excluding IEP continuers reported as 12th graders)
