# **INTRODUCTORY SECTION**

# SEGUIN

# Independent School District

November 9, 2016

Ishmael Flores, President Board of Trustee Members Seguin Independent School District 1221 East Kingsbury Seguin, Texas 78155

Dear Mr. Flores and Members of the Board:

The Comprehensive Annual Financial Report of the Seguin Independent School District (the "District") for the year ended June 30, 2016 is hereby submitted. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. (In our opinion, the data, as presented, is accurate in all material aspects; is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included in this report.)

#### THE REPORTING ENTITY AND ITS SERVICES

This report includes all funds of the District and includes all activities considered by the State of Texas to be part of the K-12 public school system. The District is an independent school district incorporated as a political subdivision of the State of Texas.

A seven-member board governs the District in accordance with state statutes and regulations. Members of the Board of Trustees (the "Board") serve staggered four-year terms without compensation and are elected from single-member districts. The Board operates as a policy making body, delegates management to the Superintendent, determines District goals, and evaluates policies in terms of effectiveness in attaining those goals. The Superintendent and the administrative staff execute the policies of the Board, assume responsibility for the operation of the District, make recommendations to the Board in matters of policy and professional personnel, prepare the budget, and report to the Board on matters related to the progress of the District in attaining the goals set by the Board.

The District provides a comprehensive range of school programs and services, as contemplated by state statute, and for 2016 had enrollment of 7,493 students (average daily attendance was 6,676 based on full time enrollments) in grades pre-kindergarten through 12. The District had 13 campuses, including one pre-kindergarten campus, seven elementary schools (grades K-5); two middle schools (grades 6-8); one traditional 5-A high school (grades 9-12); one non-traditional high school learning center (grades 9-12); and one disciplinary alternative campus (grades 2-12). Prior to the start of the 2015-16 school year, the District closed a sixth grade center and added sixth grade students to the two middle schools.

The ethnicity of the District's student population is: 70.1% Hispanic, 23.3% White, 4.9% African-American, .67% American Indian/Asian/Pacific Islander and .95% two or more races. Additionally, 65.9% of students are Economically Disadvantaged.

In addition to regular classroom instruction, the District offers a wide array of programs to meet the needs of its students, including Bilingual/English as a Second Language (ESL) education, special education and career technical education (CTE). Other special programs for accelerated and enriched education include Title I services and gifted and talented instruction. A wide variety of electives in fine arts, athletics, foreign language, physical education, and technology supplement the basic programs.

As part of the high school program, the district has a Health Science Academy (HSA) located at the Mary B. Erskine campus. The HSA serves students interested in pursuing post-graduate education and employment in health careers while taking advantage of a facility that meets the infrastructure demands for health science courses and lab instruction in a college-like atmosphere. Approximately 250 students are enrolled in the program that has the support of area physicians, Guadalupe Regional Medical Center, pharmacists and businesses in the health care industry. Their input, guidance and donations have contributed to the program's success.

Accrual of college credit is available to students at Seguin High School through several avenues. Classes, which prepare students for the College Board Advanced Placement Exams, are taught for many subjects. In partnership with the Alamo Colleges, dual credit courses are taught on the high school campus during the school day. Dual credit courses are also offered at the Central Texas Technology Center (CTTC) and through online virtual classes. Concurrent enrollment is provided to qualifying students through a partnership with Texas Lutheran University (TLU) where students take classes on the college campus.

The District received an Early College High School designation from the Texas Education Agency in the summer of 2014. Beginning in 2014-15 the comprehensive program allows all qualifying freshman to enroll in the Seguin Early College High School in partnership with Alamo Colleges - St. Philip's College. The students will continue in the program through graduation and have the opportunity to earn up to an Associate degree in conjunction with a high school diploma at no cost to the students or their families.

The District's vision is that technology must be authentically integrated to create a relevant, rigorous and engaging learning culture for students and teachers. Technology is integrated into the curriculum at every grade level (pre K-12). At each campus, students enjoy access to computers in the classroom and various laboratory settings including multimedia carts and mobile labs. Laptops and other mobile devices are being deployed to all K-8 classrooms along with updates to library media centers. Students can learn Mac and PC platforms, use numerous software programs, and have access to peripherals, digital cameras, and iPads. Seguin High School offers advanced technology courses such as computer science, multimedia, web mastery, information technology and security assurance, computer maintenance, and principals of information technology. Instruction is also offered in pre-engineering, manufacturing technology and computer aided drafting and design (CADD). All schools have filtered internet access and automated library systems. Technology helps students individualize learning, address deficiencies, and earn credit via special software and lab settings. The integration of technology into the curriculum is a critical component of a 21<sup>st</sup> century education.

Community/school partnerships help to emphasize the importance of high school academic expectations. A variety of civic organizations, including RSVP Volunteers, student groups from TLU, Seguin Youth Services, and parent volunteers provide mentoring, reading, and tutoring services in the elementary schools. The District partners with the community through the Seguin Education Foundation, a 501(c)(3) not-for-profit foundation, founded for the sole purpose of benefiting students and staff of the District. The foundation is governed by a board of directors comprised of volunteers from a cross-section of the community. Since 2004, the Seguin Education Foundation has provided 121 grants totaling over \$430,000. Approximately \$55,000 was given in the fall of 2015. The Foundation funds creative, teacher-initiated projects that enhance instruction and enrich learning.

The District is one of the largest employers in the community. The District reported total staff of 1,050.5 with 488.5 teachers, 108 professional support, 30 campus administrators and nine central administration staff members. Support staff includes 92 educational aides and 323 auxiliary staff.

Facilities and campuses in the District range in age with the oldest being more than 100 years old and the newest being seven years old.

During the summer of 2013, a Bond Advisory Committee of over 40 community members met and discussed how to implement many of the Vision 2013 Action Plans that were contingent on facilities and equipment. Discussions included how to best meet the educational needs, facility-wise, for future Seguin High School students. As a result of the Committee's work and recommendation, an \$83.3 million bond package for a \$78.3 million high school and \$5 million in district technology upgrades was approved by voters on Nov. 5, 2013 by a two to one margin. The new Seguin High School, under construction on the current Seguin High School site, is expected to be complete in August 2017.

#### ECONOMIC CONDITION AND OUTLOOK

The District is located in Guadalupe County and includes the City of Seguin, which is the county seat and principal commercial center. The City of Seguin is experiencing growth in all the business sectors. With a population of 30,000 and strategically located 35 miles east of San Antonio, 50 miles south of Austin, and 160 miles west of Houston, Seguin provides a business climate close to several metropolitan areas without big city challenges. Boasting an abundant and reliable supply of water and electricity, Seguin stands out as an excellent commercial site with a friendly and welcoming residential community as well as one of the highest per-capita concentrations of manufacturing jobs. Toll-road SH-130, which opened in fall 2012, provides an alternate route to the 1-35 gridlock and diverts commuter traffic from 1-35 just north of Austin to 1-10 at Seguin.

Growth in the manufacturing and business sector continues with the addition of an \$85 million Niagara water bottling plant with 75 new jobs and a \$58 million food manufacturing plant by Spanish company SIRO Group LLC that will add 212 new jobs. In addition, a number of new retail establishments are planned for opening throughout 2016 and 2017.

The housing sector will experience the addition of two subdivisions. The Meadows at Nolte Farms is adding 382 "Express" homes by DR Horton while Greenspoint, a 299 acre master planned community will add over 400 homes.

On July 15, 2015 the District received notice from the Commissioner of Education that the District's wealth per student in weighted average daily attendance (WADA) will exceed the equalized wealth level (EWL) of \$319,500 as established by Education Code 41.002(a)(3). The agency estimate of \$324,426 is based on the property value certified by the Texas Comptrollers' Property Tax Assistance Division (PTAD) for the tax year 2015 and the projected number of resident WADA for the 2016-17 school year. The actual determination of Chapter 41 status will be made based on 2016-17 data.

Seguin also is home to Texas Lutheran University, a nationally recognized school, and the Central Texas Technology Center that attracts students to the area on a daily basis.

#### FINANCIAL INFORMATION

District Management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit - As a recipient of state and federal financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the District. As a part of the District's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations. The results of the District's single audit for the fiscal year ended June 30, 2016 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

#### ACCOUNTING SYSTEM AND BUDGETARY CONTROL

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board on governmental accounting in its 2015 Codification of Government Accounting and Financial Reporting Standards, and subsequent statements and interpretations. The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the TEA Financial Accountability System Resource Guide.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of internal accounting structure. The internal accounting structure is designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. All internal control evaluations occur within the above framework. We believe that the District's internal accounting structure adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

Budgetary control is initiated at the onset when the Board adopts the annual appropriated budget. To ensure budgetary compliance, the TEA and the District have established spending regulations and policies. For all administrators with line item or program responsibility, TEA regulations set the level of budgetary control at the major functional expenditure level. Budgetary control is more restrictive at the District level where administrators are held responsible for maintaining and managing their budgets at the detail line item level. All revisions at the function level are approved by the Board of Trustees.

#### CASH MANAGEMENT

The District has a cash management program to maximize the use of the District's cash resources. The cash management policy of the District is to ensure the availability of cash to meet operational needs and to invest surplus cash in a manner to preserve and protect capital but also provide adequate liquidity and earn a market rate of return. Surplus cash on hand was either deposited in the District's depository bank or invested in one of four local government investment pools pursuant to the Interlocal Cooperation Act of 1989. Deposits with the depository bank were in accounts secured at the balance sheet date by FDIC coverage. The deposits were deemed collateralized under Texas Law and the TEA.

The District complies with the School Depository Act by executing a depository agreement with a banking institution for a period of two fiscal years plus two optional two-year extensions. Local banks in the immediate surrounding area are given preference. Competitive proposals are taken with state law setting the general terms of the request for proposal.

#### ACKNOWLEDGEMENTS

We respectfully acknowledge the responsible and sincere involvement of the school board, administrators, principals, program directors and coordinators in the financial affairs of the District.

Special appreciation is also expressed to members of the business office staff for their assistance and effort in maintaining the financial records of the District. Individual recognition is directed to Sally Eckhart, Abby Catoe, Caroline Hernandez, Marsha Long, Denise Erlanson, and Teri Salinas for their combined efforts in maintaining the accounting records and assisting in preparing the various financial reports at year-end. Additional recognition is directed to Superintendent Stetson Roane, Deputy Superintendent Dr. Guadalupe Gorordo, Assistant Superintendents Bill Lewis and Dorothy Whitman, Executive Directors Denise Roane and Kirsten Legore and Public Information Officer Sean Hoffmann for assistance in completing the year-end reports.

Seguin Independent School District publicly solicits the active involvement of all citizens and School District personnel in its financial affairs. Our financial records are available for public inspection and discussion at any reasonable time.

Respectfully submitted,

Mr. Stetson E. Roane Superintendent of Schools

#### **INDEPENDENT AUDITORS' REPORT**

The Board of Trustees of Seguin Independent School District:

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Seguin Independent School District (the "District"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC "A Registered Investment Advisor" This firm is not a CPA firm

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of the District's proportionate share of the net pension liability, and the schedule of District contributions on pages 4 through 10, 46, and 47, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund statements and schedules, other schedules, the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules, other schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules, other schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Maxwell Locke + Ritter LLP

Austin, Texas November 9, 2016

# SEGUIN INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Seguin Independent School District's (the "District") annual financial report presents our discussion and analysis of the District's financial performance during the year ended June 30, 2016. Please read it in conjunction with the District's basic financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- The District's net position at June 30, 2016 was approximately \$32.0 million.
- The fund balance for the General Fund at June 30, 2016 was approximately \$12.5 million, a decrease of approximately \$19.6 million from the prior year. The decrease was primarily due to a transfer to the Capital Projects Fund in the current year.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three parts: 1.) government-wide financial statements 2.) fund financial statements and 3.) notes to the basic financial statements. This report also contains required supplementary information and other financial information in addition to the basic financial statements themselves.

**Government-wide financial statements -** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to that of a private sector business.

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator as to whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include governmental activities and business-type activities. Governmental activities distinguish functions of the District that are principally supported by taxes, intergovernmental revenues, and user fees and charges. The governmental activities of the District include the education of District students and the programs necessary to support such education. Business-type activities include the rental of a portion of the central administration building and the related costs of maintaining the building.

**Fund Financial Statements -** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental Funds -** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements.

By doing so readers may better understand the long-term impact of the government's near-term financing decisions. The governmental funds balance sheet provides a reconciliation to facilitate the comparison between total fund balances and net position of governmental activities. There is a reconciliation of the statement of revenues, expenditures, and changes in fund balances of governmental funds to the statement of activities on page 15.

The District maintains numerous governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund and Capital Projects Fund as they are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for the General Fund. A budgetary comparison schedule has been provided for this fund to demonstrate compliance with this budget. Supplementary budgetary comparison schedules have also been prepared for the Child Nutrition and Debt Service Funds and are included in the Combining and Individual Fund Statements and Schedules section of this report.

**Proprietary Funds -** The District maintains two types of proprietary funds: enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The internal service funds are included within governmental activities in the government-wide financial statement-wide financial statements.

**Fiduciary Funds -** The District is the trustee, or *fiduciary*, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

**Notes to the Basic Financial Statements -** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other Information -** The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the Notes to the Basic Financial Statements. Certain information required by the Texas Education Agency and the federal government regarding tax collection and grant expenditures is also presented along with required supplementary information related to the District's contributions to a cost-sharing pension plan with the Teacher Retirement System of Texas.

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net position may serve over time as a useful indicator of the District's financial position. For the year ended June 30, 2016, net position was \$31,995,124, a decrease of \$1,135,382 as compared to net position for the year ended June 30, 2015.

Net position for the year ended June 30, 2016 as compared to the year ended June 30, 2015 can be presented as follows:

#### Seguin Independent School District's Net Position (In millions of dollars)

| Total net position                                  | \$ 31.6          | \$ 32.7       | \$<br>0.4                       | 0.4  | \$ 32.0          | 33.1                | (3.3%)         |

The District has unrestricted net position of \$4,854,841 as of June 30, 2016. For the year ended June 30, 2016, restricted net position increased by \$953,367 and unrestricted net position decreased by \$18,418,638.

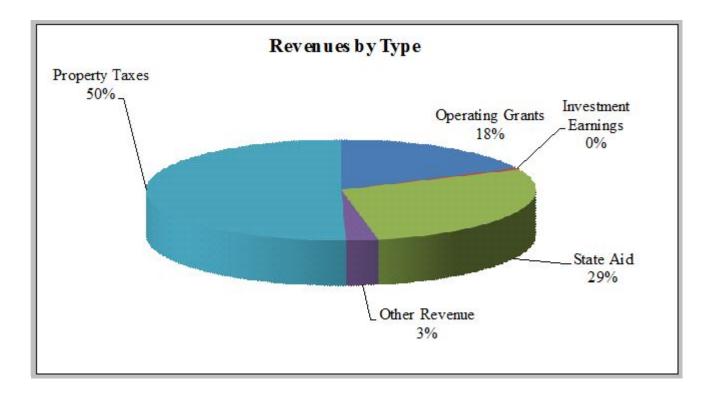

Net position may be restricted for a variety of uses by the District. These restrictions are imposed by bond covenants or federal grant requirements. Restricted net position is available for use in the designated areas only. Unrestricted net position may be used by the District to meet ongoing operating obligations as determined by the Board of Trustees (the "Board").

#### Seguin Independent School District's Changes in Net Position (In millions of dollars)

The District's total revenues from governmental activities were \$79,549,650, an increase of 7% from the prior fiscal year which was primarily due to an increase in property taxes and operating grants. The cost of all governmental activities for the year ended June 30, 2016 was \$80,696,728, an increase of 9% from the prior fiscal year which was primarily due to increased instructional, student support services and interest on long-term debt expenses. However, the amount that taxpayers paid for these activities through property taxes was only \$40,089,635. Some of the cost was paid by those who directly benefited from the programs (\$1,387,538) or by grants and contributions (\$14,256,949). An additional \$22,752,097 was paid through State funding.

The District's total revenues from business-type activities were \$45,900 and total expenses were \$35,032.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$77,015,719. Of this amount, \$11,860,481 constitutes unassigned fund balance available for use in the General Fund activities at the District's discretion, and an additional \$182,121 in General Fund fund balance is nonspendable due to being in the form of prepaid items and inventory. The remainder of the fund balance is restricted, committed or assigned to indicate that it is not available for new spending because it has already been designated for other obligations of the District.

The Debt Service Fund has a total fund balance of \$8,808,637, all of which is restricted for payment of debt service.

The Capital Projects Fund had a total fund balance of \$54,401,657, which represents funds remaining from bond sales. These funds are restricted for the construction and renovation of school buildings and purchase of equipment and land.

#### **Budgetary Highlights**

In accordance with State law and generally accepted accounting standards, the District prepares an annual budget for the General Fund, the Food Service special revenue fund, and the Debt Service Fund. Special revenue funds have budgets approved by the funding agency and are amended throughout the year as required.

During the year ended June 30, 2016, the District amended its budget as required by State law and to reflect current levels of revenue and anticipated expenditures. The General Fund's budgeted revenues exceeded actual by \$1.2 million while actual expenditures were \$1.7 million below budgeted amounts.

Over the course of the year, the Board of Trustees revised the budget from time to time. Budget amendments included adjustments to revenue totaling \$1.0 million to reflect revenue estimates in local, intermediate, state and federal program revenue. Expenditure budgets increased \$3.7 million. Changes included increases to most functions.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### **Capital Assets**

The District's investment in capital assets for its governmental activities as of June 30, 2016, amounts to \$115,308,772 (net of accumulated depreciation). This investment in capital assets includes land and land improvements, buildings and improvements, construction in progress, and furniture and equipment.

#### Seguin Independent School District Capital Assets (Net of accumulated depreciation)

| Land and land improvements | \$<br>4,078,185   |
|----------------------------|-------------------|
| Construction in progress   | 46,889,128        |
| Buildings and improvements | 61,237,699        |
| Furniture and equipment    | <br>3,103,760     |
| Total                      | \$<br>115,308,772 |

Additional information on the District's capital assets can be found in Note 7 of this report.

#### Long-term Debt

At the end of the current fiscal year, the District had total bonded debt outstanding of \$145,008,283. The bonded debt constitutes a direct obligation of the District from a continuing, direct ad valorem tax levied against all taxable property of the District without legal limit as to rate or amount. The bonds are also guaranteed by the corpus of the Permanent School fund of the State of Texas. Both Standard & Poor's Rating Services and Moody's Investors Services have provided bond ratings of AAA and Aaa, respectively, to the District's outstanding debt obligations.

Additional information on the District's long-term debt can be found in Note 9 of this report.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

For 2016-17, budget considerations included maintaining a balanced budget and providing for salary increases for all staff. Expected revenue from ad valorem taxes increased by \$500,000 as a result of the passage of a Tax Ratification Election (TRE). State Aid is also projected to increase by \$780,000 as a result of the TRE.

The performance ratings issued by the Texas Education Agency for the District's schools are also an important consideration in budgeting available resources. The District as a whole received the rating of "Met Standard". All campuses except one elementary school were also rated "Met Standard" while the one elementary school was rated "Improvement Required" and will receive additional academic support in 2016-17.

Net taxable property values for 2016 are \$2.88 million for the General Fund and \$2.99 billion. The District participates in a Chapter 313 Property Limitation Agreement that results in different taxable values for the two levies. State HB 1 limits the tax rate the District may set for maintenance and operation (M&O) at \$1.04 per \$100 valuation without voter approval. In 2016 voters approved and the School Board adopted an M&O tax rate of \$1.06. The debt service tax rate decreased from \$0.37 to \$0.36 to provide payments for debt service payments in 2016-17. The total increase in tax rate for 2016 is \$0.01 (from \$1.41 to \$1.42).

Although the District expects continued slow growth in property values, student enrollment has declined over the past few years and is not expected to increase for 2016-17. New housing developments are expected to add approximately 800 homes which should effect enrollment in future years.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer at the District, 1221 E. Kingsbury Street, Seguin, TX 78155.

#### NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2016

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **The Financial Reporting Entity**

This report includes those activities, organizations and functions which are related to the Seguin Independent School District (the "District") and which are controlled by or dependent upon the District's governing body, the Board of Trustees (the "Board"). The Board, a seven member group, is the level of government which has governance responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the District. Since the District receives funding from local, state and federal government sources, it must comply with the requirements of the entities providing those funds. However, the District is not included in any other governmental "reporting entity" as defined by Statement No. 14 of the Governmental Accounting Standards Board ("GASB"), since Board members are elected by the public and have decision making authority. There are no component units included within the reporting entity.

The accounting policies of the District comply with the rules prescribed by the Texas Education Agency's ("TEA") Financial Accountability System Resource Guide. These accounting policies conform to generally accepted accounting principles applicable to state and local governments.

#### **Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities, which are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements, although agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include state and federal program revenues and interest income. No accrual for property taxes collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end are reported as deferred inflows of resources.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District reports the following major governmental funds:

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balances are considered resources available for current operations.

The Debt Service Fund includes debt service taxes and other revenues collected to retire bond principal and to pay interest due. It is a budgeted fund.

The Capital Projects Fund includes the proceeds from the sale of bonds and other revenues to be used for authorized construction and other capital asset acquisitions.

Additionally, the District reports the following fund types:

Special Revenue Funds are governmental funds which include resources restricted, committed, or assigned for specific purposes by a grantor or the Board. Federally financed programs where unused balances are returned to the grantor at the close of specified project periods are accounted for in these funds. The District uses project accounting to maintain integrity for the various sources of funds.

The Enterprise Fund is a proprietary fund used to account for the operations of the District's Oak Park Mall.

Internal Service Funds are proprietary funds that are used to account for the District's workers compensation insurance and employee day care.

Agency Funds are unbudgeted funds and are used to account for activities of student groups and other types of activities requiring clearing accounts. These funds have no equity, assets are equal to liabilities, and they do not include revenues and expenditures for general operations of the District.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are interfund charges for workers compensation and daycare for children of students and employees. The principal operating revenues of the District's enterprise fund are charges for use of the District's Oak Park Mall. Operating expenses include administrative, facilities maintenance and operations, security and monitoring services, data processing services, and community service expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### **Budgetary Information**

Budgets are prepared annually for the General Fund, Debt Service Fund, and Food Service Fund (special revenue fund) on the modified accrual basis, which is consistent with generally accepted accounting principles. A formal budget is prepared by June 20 and is adopted by the Board at a public meeting after ten days public notice of the meeting has been given. The legal level of control for budgeted expenditures is the function level within the budgeted funds. Amendments to the budget are required prior to expending amounts greater than the budgeted amounts at the function level. Budgets are controlled at the departmental or campus level, the same level at which responsibility for operations is assigned. The budget was amended by the Board as needed throughout the year.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at June 30, and encumbrances outstanding at that time are to be either canceled or provided for in the subsequent year's budget There were no material outstanding encumbrances at June 30, 2016 that were provided for in the subsequent year's budget.

# Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity

<u>Investments</u> - Temporary investments throughout the year consisted of investments in external investment pools which are recognized at amortized cost. The District is entitled to invest any and all of its funds in certificates of deposit, direct debt securities of the United States of America or the State of Texas, certain Federal agency securities and other types of municipal bonds, fully collateralized repurchase agreements, commercial paper and local government investment pools. The District's investment policies and types of investments are governed by Section 2256 of the Texas Government Code ("Public Funds Investment Act"). The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policy. The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments.

<u>Capital Assets</u> - Capital assets, which include land, buildings and improvements, construction in progress, and furniture and equipment, are reported in the governmental activities column in the government-wide financial statements. The District has no infrastructure assets. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000. Such assets are recorded at historical cost if purchased or acquisition value at the date of donation, if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized. Capital assets (other than land and construction in progress) are depreciated using the straight line method over the following estimated useful lives: buildings and improvements - 30 years, furniture and equipment - 3 to 10 years.

<u>Inventories</u> - Inventories in the General Fund consist of expendable supplies held for consumption. Inventories are charged to expenditures when consumed. Supply inventory is recorded at cost using the FIFO method.

<u>Prepaid Items</u> - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are charged to expenditures when consumed.

<u>Ad Valorem Property Taxes</u> - Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

<u>Accumulated Sick Leave Liability</u> - The State of Texas (the "State") has created a minimum sick leave program consisting of five days of sick leave per year with no limit on accumulation and transferability among districts for every person regularly employed in Texas public schools. Each district's local board is required to establish a sick leave plan. Local school districts may provide additional sick leave beyond the State minimum. Upon the retirement of employees who have worked for the District ten years, the District pays professional employees \$75 per day and paraprofessional employees \$50 per day for any unused accrued sick leave days. The estimated liability to the District is not considered to be material to the financial statements and is not recorded.

<u>Pensions</u> - The fiduciary net position of the Teacher Retirement System of Texas ("TRS") has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Fund Equity/Net Position</u> - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 10 for additional information on those fund balance classifications.

<u>Statement of Cash Flows</u> - For purposes of the statement of cash flows of the Proprietary Funds, the District considers all liquid investments (including external investment pools) with original maturities of 90 days or less to be cash equivalents.

<u>Deferred Outflows and Inflows of Resources</u> - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. See Note 8 and Note 12 for additional information on deferred inflows and outflows of resources.

<u>Fair Value Measurements</u> - The District adopted GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity
- Level 3 are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available

There are three general valuation techniques that may be used to measure fair value:

- Market approach uses prices generated by market transactions involving identical or comparable assets or liabilities
- Cost approach uses the amount that currently would be required to replace the service capacity of an asset (replacement cost)
- Income approach uses valuation techniques to convert future amounts to present amounts based on current market expectations

Implementation of GASB Statement No. 72 did not have a significant impact on the District's financial statements for the year ended June 30, 2016.

#### **Recently Issued Accounting Pronouncements**

In June 2015, the GASB issued GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, effective for fiscal years beginning after June 15, 2017. The objective of GASB Statement No. 75 is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions. GASB Statement No. 75 establishes standards for measuring and recognizing liabilities, deferred outflows of resources and deferred inflows of resources, and expense/expenditures. GASB Statement No. 75 also identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. In addition, GASB Statement No. 75 addresses the recognition and disclosure requirements for employers with liabilities (payables) to a defined benefit other postemployment benefits plan and for employers whose employees are provided with defined contribution other postemployment benefits. Management is evaluating the effects that the full implementation of GASB Statement No. 75 will have on its financial statements for the year ended June 30, 2018.

#### 2. DEPOSITS, SECURITIES AND INVESTMENTS

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are preservation and safety of principal, liquidity and yield.

The District is authorized to invest in the following investment instruments provided that they meet the guidelines established in the investment policy:

- Obligations of, or guaranteed by, governmental entities
- Certificates of deposit and share certificates
- Fully collateralized repurchase agreements
- Securities lending programs
- Banker's acceptance
- Commercial paper
- Money market funds and no-load mutual funds
- Guaranteed investment contracts
- Public funds investment pools

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust with the District's agent approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance. Therefore, the District is not exposed to custodial credit risk.

Under the depository contract, the District, at its own discretion, may invest funds in time deposits and certificates of deposit provided by the depository bank at interest rates approximating United States Treasury Bill rates.

At June 30, 2016, the carrying amount of the District's deposits (cash in bank) was \$480,934 and the actual bank balance was \$1,198,570.

The District's deposits with financial institutions at June 30, 2016 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name. The deposits were collateralized in accordance with Texas law and the TEA maintains copies of all safekeeping receipts in the name of the District. During the year ended June 30, 2016, there were instances in which the District's deposits were not fully collateralized by FDIC insurance or by pledged collateral. These instances were due to the timing of certain payments received by the District in which the bank did not increase the pledged collateral until the next day. There were additional instances in which the District's deposits were not collateralized in compliance with District policy. Deposits were exposed to custodial credit risk at various times throughout the year.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a) Name of depository bank: First Commercial Bank
- b) Amount of bond and/or security pledged as of the date of the highest combined balance on deposit was \$4,164,293
- c) Largest cash, savings and time deposit combined account balance amounted to \$8,140,177 and occurred during the month of March 2016.
- d) Total amount of FDIC coverage at the time of highest combined balance was \$250,000.

Investments held at June 30, 2016 consisted of the following:

| Туре                                 | Fair Value    | Weighted<br>Average<br>Maturity<br>(Days) | Standard<br>& Poor's<br>Rating |
|--------------------------------------|---------------|---|--------------------------------|

| Texas CLASS                          | 17,146,964    | 1   | AAAm                           |
| Lone Star                            | 49,057,491    | 1   | AAA                            |
| Logic                                | 13,701,356    | 1   | AAAm                           |
| Total                                | \$ 84,792,938 |   |                                |

The District had investments in four external local government investment pools at June 30, 2016: Texas Local Governmental Investment Pool ("TexPool"), Lone Star Investment Pool ("Lone Star"), Texas CLASS Investment Pool ("CLASS"), and Local Government Investment Cooperative ('LOGIC"). Although TexPool, Lone Star, CLASS, and LOGIC are not registered with the SEC as investment companies, they operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. These investments are stated at amortized cost in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

TexPool is overseen by the Texas State Comptroller of Public Accounts, who is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company which is authorized to operate TexPool. TexPool also has an advisory board to advise on TexPool's investment policy, which is made up equally of participants and nonparticipants who do not have a business relationship with TexPool. Federated Investors manages daily operations of TexPool under a contract with the Comptroller and is the investment manager for the pool. TexPool's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

Lone Star is governed by an eleven member board of trustees, in which all of the members are also participants in Lone Star. The board meets quarterly to review operations, adopt or make changes to the investment policy, review financial activity and approve contractor agreements. Lone Star also has an advisory board consisting of participants and nonparticipants. RBC Dain Rauscher, Inc. is an independent consultant for Lone Star that reviews daily operations, analyzes all investment transactions for compliance with the Public Funds Investment Act, and performs monitoring activities. The Bank of New York provides custody and valuation services for Lone Star. American Beacon Advisors and Standish Mellon provide other investment management services. Lone Star's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

CLASS is administered and supervised by a seven-member board of trustees, whose members are investment officers of the participants in CLASS. CLASS has contracted with MBIA Municipal Investors Service Corporation to provide for the investment and management of the public funds of CLASS. Separate financial statements for Texas CLASS may be obtained by contacting MBIA Asset Management at 815-A Brazos Street, Suite 345, Austin, Texas 78701-9996, or by calling 800-707-6242.

LOGIC is an investment program for local governments within the State of Texas. LOGIC is governed by a board of trustees consisting of individuals from participating government entities. JP Morgan Investment Management, Inc. and First Southwest provide investment management services. Investments are subject to the strict requirements of the Public Funds Investment Act and LOGIC may invest in any of the securities authorized by statute. LOGIC must demonstrate compliance with Chapter 2256, Sections .016, .017, .018, and .019.

<u>Credit Risk</u> - At June 30, 2016, investments were included in local government investment pools in compliance with the District's investment policy.

<u>Custodial Credit Risk</u> - Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the District, and are held by either the counterparty or the counterparty's trust department or agent not in the District's name. At June 30, 2016, the District was not exposed to custodial credit risk.

<u>Concentration of Credit Risk</u> - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investments in a single issuer. Information regarding investments in any one issuer that represents five percent or more of the District's total investments must be disclosed under GASB Statement No. 40, excluding investments issued or explicitly guaranteed by the U.S. Government. At June 30, 2016, the District had 100% of its investments in local government investment pools.

<u>Interest Rate Risk</u> - As a means of minimizing risk of loss due to interest rate fluctuations, the investment policy requires the District to monitor interest rate risk using weighted average maturity and specific identification. Maturities of any individual investment owned by the District should not exceed one year from the time of purchase unless the Board specifically authorizes a longer maturity for a given investment, within legal limits. The District considers the holdings in the local government investment pools to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. At June 30, 2016, the District was not exposed to significant interest rate risk.

#### 3. APPRAISAL DISTRICT

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code (the "Code") which established a county-wide appraisal district and an appraisal review board in each county in the State. The Guadalupe Appraisal District (the "Appraisal District") is responsible for the recording and appraisal of all property in the District. Under the Code, the District's Board sets the tax rates on property and the Guadalupe County tax assessor/collector provides tax collection services. The Appraisal District is required under the Code to assess property at 100% of its appraised value. Further, real property must be reappraised at least every four years. Under certain circumstances, taxpayers and taxing units, including the District, may challenge orders of the Appraisal Review Board through various appeals and, if necessary, legal action.

Property taxes are levied as of October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, and penalties and interest that are ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period, including those property taxes expected to be collected during a 60 day period after the end of the District's fiscal year. The assessed value at January 1, 2015, upon which the October 2015 levy was based, was \$2,991,776,217. The District levied taxes based on a combined tax rate of \$1.41 per \$100 of assessed valuation for local maintenance (general governmental services) and debt service.

In May 1993, the Texas Legislature passed Senate Bill 7. Senate Bill 7 significantly changed certain aspects of the school finance system relative to accountability, teacher appraisal, career ladder, funding allotments, district local share, distribution of Foundation School Funds, tax limitations and rollback tax provisions. Funding equalization for school districts is a major component of the bill. Districts with wealth per student in excess of \$319,500 are required to take action to bring their wealth down to the equalized State level. Each year, the TEA notifies school districts in which property wealth per Weighted Average Daily Attendance ("WADA") meets or exceeds \$319,500. However, the final determination of whether a school district will be required to make recapture payments is based on the district's tax effort and the extent to which the district's wealth per WADA exceeds the first equalized wealth level of \$514,000. The District was not above the equalized wealth level for the 2015-2016 fiscal year.

#### 4. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully fund certain activities. The District also receives entitlements from the State through the School Foundation and Per Capita Programs. These amounts are reported in the basic financial statements as Due from Other Governments and are summarized below as of June 30, 2016.

|                          | <br>General<br>Fund | Debt Service<br>Fund | Nonmajor<br>Governmental<br>Funds | Total     |
|--------------------------|---------------------|----------------------|-----------------------------------|-----------|
| State entitlements       | \$<br>7,043,451     | -                    | -                                 | 7,043,451 |
| Federal and state grants | 42,511              | -                    | 872,060                           | 914,571   |
| Other                    | <br>60,451          | 17,808               |                                   | 78,259    |
| Total                    | \$<br>7,146,413     | 17,808               | 872,060                           | 8,036,281 |

#### 5. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds." The composition of interfund balances as of June 30, 2016 is as follows:

| Receivable Fund             | Payable Fund                | <br>Amount      |
|-----------------------------|-----------------------------|-----------------|
| General Fund                | Nonmajor Governmental Funds | \$<br>498,651   |
| General Fund                | Internal Service Fund       | 19,690          |
| General Fund                | Capital Projects Fund       | 141             |
| General Fund                | Enterprise Fund             | 1,211           |
| Nonmajor Governmental Funds | General Fund                | 383,015         |
| Internal Service Fund       | General Fund                | 430             |
| Fiduciary Fund              | General Fund                | <br>260,071     |
| Total                       |                             | \$<br>1,163,209 |

During the year, the General Fund transferred \$20,754,130 to the Capital Projects Fund to fund capital projects and \$80,074 to an Internal Service Fund to supplement operations. The Capital Projects Fund transferred \$1,086,782 to the General Fund to fund capital projects from funds that were not related to bond proceeds and thus were not restricted on their use.

#### 6. UNEARNED REVENUE

At June 30, 2016, unearned revenue in governmental funds consisted of the following:

|                          |      | Nonmajor |              |         |  |
|--------------------------|------|----------|--------------|---------|--|
|                          | G    | eneral   | Governmental |         |  |
|                          | Fund |          | Funds        | Total   |  |
| Federal and state grants | \$   | -        | 155,564      | 155,564 |  |
| Other                    |      | 29,167   |              | 29,167  |  |
| Total                    | \$   | 29,167   | 155,564      | 184,731 |  |

#### 7. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2016 was as follows:

|                           | Beginning<br>Balance | Increases   | Decreases | Ending<br>Balance |
|---------------------------|----------------------|-------------|-----------|-------------------|
| Governmental activities:  |                      |             |           |                   |
| Capital assets, not       |                      |             |           |                   |
| being depreciated:        |                      |             |           |                   |
| Land                      | \$ 4,078,185         | -           | -         | 4,078,185         |
| Construction in           |                      |             |           |                   |
| progress                  | 6,024,768            | 40,864,360  |           | 46,889,128        |
| Total capital assets, not |                      |             |           |                   |
| being depreciated         | 10,102,953           | 40,864,360  |           | 50,967,313        |
| Capital assets, being     |                      |             |           |                   |

| Total  |                  | \$195,718,123                |                    |                  | \$145,008,283             | \$ 5,149,928           |

General obligation bonds:

For the general obligation bonds, the District has pledged as collateral the proceeds of a continuing, direct annual tax levied against taxable property within the District without limitation as to rate. The Texas Education Code generally prohibits issuance of additional ad valorem tax bonds if the tax rate needed to pay aggregate principal and interest amounts of the District's tax bond indebtedness exceeds \$0.50 per \$100 of assessed valuation of taxable property within the District. The District's debt service rate for tax year 2015 was \$0.37.

On September 29, 2015, the District issued \$37,065,000 in Unlimited Tax School Building Bonds, Series 2015, for the acquisition, design, renovation, construction and equipment of school facilities in the District, including a new high school, and to pay for the cost issuance of the bonds. The net proceeds of \$38,303,126 (after payment of \$448,423 in underwriting fees, insurance, and other issuance costs) were used for the following: \$38,300,000 was invested by the District to fund future construction and \$3,126 was deposited in the Debt Service Fund for future interest and principal payments and bond issuance costs.

On March 30, 2016, the District issued \$33,375,000 of Refunding Bonds, Series 2016, to advance refund \$34,955,000 of previously issued District bonds in order to lower its overall debt service requirements. The net proceeds of \$38,366,758 (after payment of \$440,073 in underwriting fees, insurance, and other issuance costs) were used for the following: \$38,301,111 was deposited with an escrow agent to provide the debt service payment on the portion of bonds advance refunded and \$65,647 was deposited in the debt service fund for future interest and principal payments. As a result, \$34,955,000 of bond principal is considered defeased and the liability for these bonds was removed from the basic financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$3,346,111. This amount is recorded as a deferred outflow of resources and amortized over the remaining life of the refunded debt which is shorter than the life of the new debt issued. The advance refunding reduced debt service payments by \$4,303,513 and resulted in an economic gain of \$3,567,184.

On June 8, 2016, the District issued \$7,045,000 of Refunding Bonds, Series 2016-A, to currently refund \$8,065,000 of previously issued District bonds in order to lower its overall debt service requirements. The net proceeds of \$8,224,829 (after payment of \$141,989 in underwriting fees, insurance, and other issuance costs) were used for the following: \$8,223,380 was deposited with an escrow agent to provide the debt service payment on the portion of bonds currently refunded and \$1,449 was deposited in the debt service fund for future interest and principal payments. As a result, \$8,065,000 of bond principal is considered defeased and the liability for these bonds was removed from the basic financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$158,380. This amount is recorded as a deferred outflow of resources and amortized over the remaining life of the refunded debt which is shorter than the life of the new debt issued. The advance refunding reduced debt service payments by \$1,303,900 and resulted in an economic gain of \$1,176,078.

| Year Ended June 30, | <br>Principal     | Int | terest    | Total       | _ |

| Total               | \$<br>145,008,283 | 89  | 9,901,834 | 234,910,117 |   |

The annual principal installments for each of the outstanding issues vary each year. As of June 30, 2016, the debt service requirements of bonded indebtedness to maturity are as follows:

The outstanding 2006 and 2008 Series Bonds include Capital Appreciation Bonds. The interest shown above, with respect to the Capital Appreciation Bonds, includes the interest to be paid on bonds maturing in the respective years and does not include accrued interest on bonds not maturing in those years.

The District defeased outstanding general obligation bonds through the Series 2016 and 2016A Refunding Bonds by placing the proceeds of the new bonds in irrevocable trusts to provide for all the future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not included in the District's financial statements. At June 30, 2016 outstanding bonds of \$43,020,000 are considered defeased.

As of June 30, 2016, there were no general obligation bonds authorized by voters of the District, but unissued.

#### **10. FUND BALANCES**

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

<u>Nonspendable</u> - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

<u>Restricted</u> - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

<u>Committed</u> - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

<u>Assigned</u> - For the General Fund, amounts that are appropriated by the Board or Board designee that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

<u>Unassigned</u> - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances are included in the Governmental Funds Balance Sheet on page 13.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board may also assign fund balance for a specific purpose.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

For the year ended June 30, 2016, revenues from local and intermediate sources in governmental funds consisted of the following:

#### 12. DEFINED BENEFIT PENSION PLANS

#### **Plan Description**

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by TRS. TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

#### **Pension Plan Fiduciary Net Position**

Detailed information about TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

#### **Benefits Provided**

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, in which the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

#### Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83<sup>rd</sup> Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83<sup>rd</sup> Texas Legislature, General Appropriations Act ("GAA") established the employer contribution rates for fiscal years 2014 and 2015. The 84<sup>th</sup> Texas Legislature GAA established the employer contribution rates for fiscal years 2016 and 2017.

|  | 2015 | 2016         |
|--|------|--------------|
| Contribution Rates:                      |      |              |
| Member                                   | 6.7% | 7.2%         |
| Non-Employer Contributing Entity (State) | 6.8% | 6.8%         |
| Employers                                | 6.8% | 6.8%         |
| 2015 District Contributions              |      | \$ 1,356,111 |
| 2015 Member Contributions                |      | \$ 2,874,932 |
| 2015 NECE On-behalf Contributions        |      | \$ 2,147,077 |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the GAA.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of TRS the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

#### **Actuarial Assumptions**

The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

| Valuation Date                               | August 31, 2015             |
|--|-----------------------------|
| Actuarial Cost Method                        | Individual Entry Age Normal |
| Asset Valuation Method                       | Market Value                |
| Discount Rate                                | 8.00%                       |
| Long-term expected Investment Rate of Return | 8.00%                       |
| Inflation                                    | 2.5%                        |
| Salary Increases including inflation         | 3.50% to 9.50%              |
| Payroll Growth Rate                          | 2.50%                       |
| Benefit Changes during the year              | None                        |
| Ad hoc post-employment benefit changes       | None                        |

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected rate of return plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS' target asset allocation as of August 31, 2015 are summarized below:

|                               | Target<br>Allocation | Long-Term<br>Expected<br>Geometric<br>Real Rate of<br>Return | Expected<br>Contribution<br>to Long-Term<br>Portfolio<br>Return* |
|-------------------------------|----------------------|--|--|

\* The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

#### **Discount Rate Sensitivity Analysis**

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 Net Pension Liability.

|   | 1%            |               | 1%            |
|---|---------------|---------------|---------------|
|   | Decrease in   |               | Increase in   |
|   | Discount Rate | Discount Rate | Discount Rate |
|   | (7.0%)        | (8.0%)        | (9.0%)        |
| District's proportionate share of the net pension liability | \$ 25,365,307 | \$ 16,189,125 | \$ 8,545,935  |

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the District reported a liability of \$16,189,125 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's Proportionate share of the |               |
|---------------------------------------|---------------|
| collective net pension liability      | \$ 16,189,125 |
| State's proportionate share that is   |               |
| associated with the District          | 25,624,014    |
| Total                                 | \$ 41,813,139 |

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 through August 31, 2015.

At August 31, 2015 the employer's proportion of the collective net pension liability was 0.0458% which was an increase of 0.02% from its proportion measured as of August 31, 2014.

**Changes Since the Prior Actuarial Valuation -** The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

#### **Economic Assumptions**

- The inflation assumption was decreased from 3.00% to 2.50%.
- The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
- In accordance with the observed experience, there were small adjustments in the service-based promotion/longevity component of the salary scale.
- The payroll growth assumption was lowered from 3.50% to 2.50%.

#### Mortality Assumptions

- The post-retirement mortality tables for non-disabled retirees and disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rated will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

#### Other Demographic Assumptions

- Previously it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
- There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
- Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
- Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
- For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

#### Actuarial Methods and Policies

• The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended June 30, 2016, the District recognized pension expense of \$2,771,585 and revenue of \$3,651,010 for support provided by the State.

At June 30, 2016, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred |           | Ι          | Deferred  |  |
|--|----------|-----------|------------|-----------|--|
|  | Ou       | tflows of | Inflows of |           |  |
|  | R        | esources  | Resources  |           |  |
| Differences between expected and actual  |          |           |            |           |  |
| economic experience                      | \$       | 94,485    | \$         | 622,163   |  |
| Changes in actuarial assumptions         |          | 397,123   |            | 577,557   |  |
| Difference between projected and actual  |          |           |            |           |  |
| investment earnings                      | ,        | 2,303,080 |            | -         |  |
| Changes in proportion and difference     |          |           |            |           |  |
| between the employer's contributions and |          |           |            |           |  |
| the proportionate share of contributions | 4        | 4,178,158 |            | 1,602     |  |
| Contributions paid to TRS subsequent to  |          |           |            |           |  |
| the measurement date                     |          | 1,190,654 |            | -         |  |
| Total                                    | \$       | 8,163,500 | \$         | 1,201,322 |  |

The \$1,190,654 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

|                     | Pension<br>Expense<br>Amount |
|---------------------|------------------------------|
| Year ended June 30: |                              |
| 2017                | \$ 1,039,193                 |
| 2018                | 1,039,193                    |
| 2019                | 1,039,193                    |
| 2020                | 1,600,508                    |
| 2021                | 597,863                      |
| Thereafter          | 455,574                      |

#### **13. ON-BEHALF PAYMENTS**

The District recognizes as revenues and expenditures retiree drug subsidy reimbursements under the provisions of Medicare Part D made by the federal government to the System on behalf of the District. For the year ended June 30, 2016, reimbursements of \$125,737 were received by the System and allocated to the District.

#### 14. SCHOOL DISTRICT RETIREE HEALTH PLAN

<u>Plan Description</u> - The District contributes to the Texas Public School Retired Employees Group Insurance Program ("TRS-Care"), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by TRS. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.02 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the Communications Department of TRS at 1000 Red River Street, Austin, Texas 78701.

<u>Funding Policy</u> - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2014-2016.

|      | Contribution Rates: |    |         |      |             |         |                 |    |         |  |        |  |
|------|---------------------|----|---------|------|-------------|---------|-----------------|----|---------|--|--------|--|
|      | Active Member       |    |         |      | State       | e       | School District |    |         |  |        |  |
| Year | Rate                |    | Amount  | Rate | Rate Amount |         | Rate Amount     |    | Rate    |  | Amount |  |
| 2016 | .65%                | \$ | 279,878 | 1.0% | \$          | 430,582 | .55%            | \$ | 236,820 |  |        |  |
| 2015 | .65%                |    | 276,988 | 1.0% |             | 426,135 | .55%            |    | 234,374 |  |        |  |
| 2014 | .65%                |    | 265,091 | 1.0% |             | 407,835 | .55%            |    | 224,308 |  |        |  |

#### 15. EMPLOYEE HEALTH CARE COVERAGE

During the year ended June 30, 2016, employees of the District were covered by TRS Active Care (the "Plan""), a statewide coverage program for public education employees. The Plan is administered by Aetna and Caremark. The District paid premiums of \$293 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to a third party administrator acting on behalf of the licensed insurer. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreements. Latest financial statements for the Plan for the year ended August 31, 2015 are public record and have been filed with the Texas State Board of Insurance, Austin, Texas.

#### 16. RISK MANAGEMENT

The District's risk management program includes coverages through third party insurance providers for property, automobile liability, school professional liability, crime, workers compensation and other miscellaneous bonds. During the year ended June 30, 2016, there were no significant reductions in insurance coverage from coverage in the prior year. Losses in excess of the various deductible levels are covered through traditional indemnity coverage for buildings and contents, and vehicle liability with various insurance firms. Settled claims have not exceeded insurance limits for the past three years.

Employees of the District are covered by a workers' compensation insurance plan. The program is administered by a third party, the Texas Association of School Boards. The District is protected against unanticipated catastrophic loss by stop-loss coverage carried through a third-party insurance provider for specific occurrences exceeding \$300,000 and an aggregate limit of \$1,000,000. The claim liability below is an estimate of potential loss exposure on workers' compensation claims at year end which includes incurred but not reported claims and claims reported but not paid. A reconciliation of the estimated claim liability is as follows:

|                       | В  | Beginning | <b>Current Period</b> | Claim     | Ending    |  |
|-----------------------|----|-----------|-----------------------|-----------|-----------|--|
| Period Ended June 30, | ]  | Liability | Claims                | Payments  | Liability |  |
| 2014                  | \$ | 758,811   | 8,765                 | (234,084) | 560,492   |  |
| 2015                  | \$ | 560,492   | 85,404                | (164,862) | 481,034   |  |
| 2016                  | \$ | 481,034   | 238,220               | (228,878) | 490,376   |  |

#### 17. COMMITMENTS AND CONTINGENCIES

The District participates in a number of federal financial assistance programs. Although the District's grant programs have been audited in accordance with the provisions of the Uniform Guidance through June 30, 2016, these programs are subject to financial and compliance audits. The amounts, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

At June 30, 2016, the District is also committed under construction contracts with a remaining balance of \$47,088,782.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION YEAR ENDED JUNE 30, 2016

#### 1. CHANGE IN ASSUMPTIONS

The following are the summary of changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

- The inflation assumption was decreased from 3.00% to 2.50%.
- The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
- There were small adjustments in the service-based promotion/longevity component of the salary scale.
- The payroll growth assumption was lowered from 3.50% to 2.50%.
- The post-retirement mortality tables for non-disabled retirees and disabled retirees were updated to reflect recent TRS member experience.
- The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees.
- Previously it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
- There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
- Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
- Small adjustments to the disability patterns were made for members consistent with experience and future expectations.
- For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.
- The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

## INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees of Seguin Independent School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Seguin Independent School District (the "District"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 9, 2016.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC "A Registered Investment Advisor" This firm is not a CPA firm

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2016-001 that we consider to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying schedule of findings and questioned costs as item 2016-001.

#### The District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing* Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Board of Trustees of Seguin Independent School District:

#### **Report on Compliance for Each Major Federal Program**

We have audited Seguin Independent School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2016. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

#### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control of deficiencies, in internal control over compliance with a type of compliance is a deficiency of the prevented of the prevented of a federal program will not be prevented or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Maxwell Locke + Ritter LLP

# NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2016

#### 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Seguin Independent School District (the "District") under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, change in net position, or cash flows of the District.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of Accounting**

The expenditures on the accompanying schedule of expenditures of federal awards are presented using the modified accrual basis of accounting, with the exception of the National School Lunch Program, the School Breakfast Program, and the Food Distribution Program. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become available and measurable, and expenditures in the accounting period in which the fund liability is incurred, if measurable. Expenditures in the National School Lunch Program, the School Breakfast Program, and the Food Distribution Program are not specifically attributable to this revenue source and are shown on the accompanying schedule of expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited to reimbursement.

The District has elected to not use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

#### **Relationship to Basic Financial Statements**

Expenditures of federal awards are reported in the District's basic financial statements in the General Fund and special revenue funds.

#### **Relationship to Federal Financial Reports**

Amounts reported in the accompanying schedule of expenditures of federal awards agree with the amounts reported in the related federal financial reports in all significant respects.

#### Valuation of Non-cash Programs

The District values revenues and expenditures for the Food Distribution Program based on the value of commodities received.

#### SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2016

#### SECTION II - FINANCIAL STATEMENT FINDINGS

There was one finding required to be reported in accordance with *Government Auditing Standards* for the years ended June 30, 2016. There were no findings required to be reported in accordance with *Government Auditing Standards* for the year ended June 30, 2015.

#### <u>Findings Relating to Internal Control over Financial Reporting and Compliance in Accordance</u> with *Government Auditing Standards*:

2016-001

| Criteria:  | The District's deposits with financial institutions are required to be entirely<br>covered by FDIC insurance or by pledged collateral held by the District's<br>agent bank in the District's name. District policy also requires that the<br>amount of collateral held should equal at least 110% of the District's<br>deposits, less FDIC insurance.  |
|--|--|
| Condition /Context:  | There were instances during the fiscal year ended June 30, 2016 in which the District's deposits were not fully collateralized by FDIC insurance or pledged collateral. There were additional instances in which the FDIC insurance and pledged collateral amounts were greater than the District's deposits, but were less than the required 110% collateral amount based on District policy.   |
| Effect:  | Noncompliance with the requirements of the Texas Education Code<br>Section 45.208 and District policy. The District's deposits were exposed to<br>custodial credit risk at various times throughout the year.  |
| Cause:   | The District and its depository bank were not monitoring and adjusting pledged collateral on the District's deposit balances on a timely basis.  |
| Recommendations:   | The District should monitor deposit and related collateral balances on a daily basis and notify the District's depository bank if any of the District's deposits are not fully collateralized or are not in compliance with District policy.   |
| Views of Responsible<br>Officials and Planned<br>Corrective Actions: | The District has determined that the high balances in the District's depository accounts were caused by transfers from the District's investment accounts to the depository accounts to pay construction vendors. To rectify this issue, the District has contacted their large volume construction contractors and requested that they be paid via EFT/ACH directly from the District's investment accounts. This will eliminate the spike in the balances in the District's depository accounts caused by the timing of when transfers are received from the investment accounts and when the District issues a check to these construction vendors. Contact: Anthony Hillberg, Chief Financial Officer. |

#### SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

No findings or questioned costs required to be reported in accordance with 2 CFR 200.516(a) for the year ended June 30, 2016. There was one finding required to be reported in accordance with Section 510(a) of OMB Circular A-133 for the year ended June 30, 2015.

#### <u>Finding Relating to Internal Control over Compliance/Noncompliance with Cost Principles</u> <u>Reported in Accordance with section 510(a) of OMB Circular A-133:</u>

| 2015-001           |   |
|--------------------|---|
| Federal Program:   | Head Start - CFDA #93.600; Project # - 60-650-5347-3855-SGNISD-1;<br>Passed through BCFS Education Services   |
| Criteria:          | OMB Circular A-87 requires that employees who work solely on a single<br>cost objective must furnish a semi-annual certification that they have been<br>engaged solely in activities supported by the applicable source or complete a<br>personnel activity report at least monthly which reflects the actual time spent<br>on a cost objective and is signed by the employee or a supervisor with<br>knowledge of how an employee's time has been spent. |
| Condition/Context: | The District's employees who worked solely on the Head Start Program did<br>not complete semi-annual certifications during the current year.  |
| Questioned Costs:  | None  |
| Effect:            | Noncompliance with time and effort documentation requirements of<br>OMB Circular A-87 and OMB Circular A-133 Compliance Supplement if<br>semi-annual certifications or personnel activity reports are not completed.<br>The District recorded payroll expenditures of \$426,553 to the Head Start<br>Program related to these employees.  |
| Cause:             | Payroll expenditures for employees who worked solely on the Head Start<br>Program during the current year were not supported by a semi-annual<br>certification or personnel activity report.  |
| Recommendations:   | District management should ensure that policies and procedures are in place<br>and functioning so that employees either complete semi-annual certifications<br>or personnel activity reports.   |
| Current Status:    | The District has implemented procedures to ensure that time and effort<br>documentation is maintained for the Head Start program along with other<br>federal programs.  |
