

Dental Identification Cards

This page contains two dental identification cards. While you are not required to show the card to your dentist as proof of coverage, it does include your group number. You can give the number to your dentist or use it if you need to file a claim. **Please note:** MetLife provides all dental offices, participating and non-participating, with access to patient eligibility and benefit information. The information is available online and via a dedicated dental office toll-free number. All you need to do is notify your dentist office that MetLife is your dental provider when scheduling an appointment.
