Credit by Examination for Acceleration

Students in grades K-5

A student in elementary school will be eligible to accelerate to the next grade level if the student scores at least 80 on each exam in the subject areas of language arts, mathematics, science, and social studies, a school district representative recommends that the student be accelerated, and the student's parent or guardian gives written approval of the grade advancement

Students in grades 6-12

A student in grades 6-12 must be given credit for an academic subject in which he or she has had no prior instruction if the student scores 80 percent on a subject-matter test for the applicable course. A student may take an exam to earn high school course credit no more than twice.

Credit Recovery

Students in grades 6-12 who received prior instruction in a subject area but did not receive credit may earn credit by scoring a grade of 70% or above on a test covering the appropriate essential knowledge and skills in that subject area.
