

Smart Tag ID

SMART tag™ student IDs allow parents to monitor their child's transportation on district school buses via the Parent Portal on the SMART tag™ Parent App. Parents can receive notifications when their child gets on or off the bus, as well as an alert for when the bus is on its way to their child's stop. The district's Transportation Department will also utilize this program to notify parents of potential delays.

The SMART tag™ IDs used for tracking students on district transportation will serve as the student's school ID, which can also be used in their school cafeteria and library. Schools will also use SMART tag™ IDs for the Positive Behavior Interventions and Supports (PBIS) reward system, which was previously known as "Matador Bucks" or "Matador Cash" on some campuses.

Students should wear their SMART tag™ ID at all times. Those who previously received a SMART tag™ ID can use these cards as long as they are enrolled at any Seguin ISD campus.

Students who need a replacement for lost or damaged SMART tag™ cards can purchase one for \$5.00. The replacement cards for pre-K and elementary students can be ordered at school or picked up at the district's Transportation Department. Middle and high school students can get new cards at their home campus.
